SUMMER VACATION HOLIDAY HOMEWORK

CLASS - II

Keep the

Earth clean

“If you think the environment is less important than the economy, try holding your breath while you count your money.”

- Dr. Guy McPherson

The long awaited Summer Holidays is finally here.

Summer Vacations...!!

It's time to stay up late. It's time to play all day and not think about tests and worksheets. Yes it's time to relax and enjoy. It's time to enjoy reading books with your grandparents. After all summer holidays are here. Holidays are great, but schoolwork can be fun filled and inspiring too! So here are a few interesting, activities to keep you going, through the summer break.

So, it's a humble request to parents to take a positive interest, as the wards learn a lot when the children learn by doing. In fact, your involvement too will add an element of fun and excitement to the project work. Summer Holiday Homework is an initiative on our part, to inculcate innovativeness, creativity and interest in the tasks assigned to our students.
