REGARDING: Maintenance Of Notebooks

Dear Parents,

We hope that you would have collected the books and the notebooks from the school premises by now. As the online classes are going on in full swing, the students are expected not to show a lackadaisical attitude towards maintaining the notebooks. The school expects the students to maintain the notebooks keeping in mind all the instructions provided by the teachers in the class. All related notes, questions and answers etc. have to be attempted meticulously.

The corrections of the notebooks will be undertaken by the teachers for which the students are supposed to send the work in writing done in the notebook as a PDF file.

As per the norms of CBSE, Internal Assessment also carries the marks for the notebooks. Thus, the notebooks need to be kept neat and up to date. As and when the situation turns normal, the students will be asked to submit the notebooks in the school for corrections. Hence, students should refrain from a reckless attitude and send the PDF FILES asked for on a regular basis.
